**TO:** Mike McSweeney, Interim Stadium Manager  
**FROM:** Councilmember Frye *Donna Frye*  
**SUBJECT:** Qualcomm Stadium noise issues

---

Our office has received a number of calls and e-mails in recent weeks from residents complaining of excessive noise at stadium concerts and other special events.

To assist us in responding to these communications, please provide the following information:

1. What are your procedures for evaluating and addressing off-site noise complaints as they arise, during an event?
2. What are the maximum decibel levels allowed at stadium events, and how are you monitoring those levels? What systems do you use to measure decibel levels during concerts and other special events?
3. What process do you have for follow-up communications with neighbors who raise noise issues with your events?

Thank you for your prompt response and assistance.
